

MAY VACCINATE THE WORKS OFFICIALS

Because of Outbreak Among Men on East End Sewer Work.

Spur Line Proposed to Serve National Car Plant Immediately.

The spread of smallpox among the men of East Hamilton is causing city officials a lot of worry. The health authorities have just discovered that a number of the city workers have the disease, and as a result have ordered that all the laborers working on the Ottawa street sewer be vaccinated at once. About fifty underwent vaccination this morning, and the probability is that hundreds more will have to take the same precaution, as well as the members of the Works Department and the Works Committee. Chairman Mills made the announcement this morning that some of the laborers in the east end of the city were responsible for this, and that no chances could be taken, even if the city officials were. When the city engineers to vaccinate City Engineer Macaulay and his underlings, he was apt to be some strenuous objector to the city engineers, but that situation is worse than useless.

Mr. Mills, chairman of the Works Committee, called the Times to explain the situation, and the probability is that Controller Bailey and Ald. Morris will be responsible for the proposed street railway extension was not correct. Controller Bailey has not done anything this morning to further the work of securing railway extension," declared Ald. Mills. He has merely attended a meeting, and both he and Ald. Morris opposed the scheme of the rest of the committee to secure the extension.

If the street railway company and the special committee follow up a suggestion by Controller Bailey, as explained above, the city will be in a predicament regarding extensions, an immediate service to the National Car Works and other big industries in that vicinity will be secured. Controller Allan explained the scheme to-day. He would have the end of its present line at Front and the extension to the city. It would be done in a few months, whereas it will take a long time to build the whole extension along the line, which would have to be graded. "A subway has to be built under the street," he said. "It is a terrible job, but it is the only way to do it."

GIVEN A WHIRL

Harry Hewitt Caught In the Machinery.

Harry Hewitt, who resides at 15 Strachan street east, had a close call last evening while at work at the Hamilton bridge works. He is employed as a machinist, and was working near a rapidly moving machine, when, in some unknown manner he became tangled in the machinery, and was whirled about for several minutes. His clothes were torn, and he was thrown some distance across the room. First aid was administered while awaiting the arrival of the physician. Dr. Burns called and had the man removed to the hospital, where he was attended to. It is feared a good night's rest in his injuries are very painful.

Hamilton Bought Up the Prize Beef.

Said To Be the Best Yet Exhibited.

Several of the local wholesale butchers attended the Live Stock Show in Toronto yesterday, and what they did not bring home with them was hardly worth while bothering with. Will J. Lord, a butcher in the Market Hall, bought the highest priced beef that was shown at the show. The champion steer weighed 2,000 pounds, and the price paid for it, therefore, would be around \$600.

FOUND DEAD IN CELLAR

By Times Special Wire. Rochester, Ont., Dec. 12.—Mrs. Harry Brown, who lives at 121 Main street, here, who has been missing for the past couple of days, was found this morning by her husband in the cellar of his home. She was found lying on the floor, and was apparently dead. The cause of death is not yet known, but it is believed to be a heart attack.

REMOVED NUMBER

Burned Automobile Has Not Been Removed.

The automobile that was destroyed by fire just outside of Mount Hope early on Friday morning still remains where it was left in the ditch, where it was drawn by residents, after standing on the high road two days. It is not believed that the people who left it there will ever take it away. They may send a junk dealer for it. They removed everything on the car that might lead to the identification, even to the number, and it is likely that they would have taken it away if it had not been for the fact that it was in the way of the road.

PRINCE REGENT OF BAVARIA IS DEAD

Luitpold, Who Held Power Through King Otto's Insanity, Closes Long Life.

By Times Special Cable. Munich, Bavaria, Dec. 12.—Luitpold, Prince Regent of Bavaria, died here to-day. He was 91 years old. The Prince Regent had been in failing health for several months, and his death was not unexpected.

Prince Luitpold was the oldest ruling prince in Europe in point of years, having been born on March 12, 1812. He was nine years older than the Emperor Francis Joseph of Austria, who was born on Aug. 18, 1858. The latter, however, has already occupied the throne for 46 years, as he became ruler at the age of 18, while Prince Luitpold had been Regent only since June 10, 1886.

The Imperial House of Prince Luitpold's death was a great loss to the kingdom of Bavaria, which was aggravated by the fact that the prince had been a great statesman and a great soldier. He had held power through the insanity of King Otto, and he had held it for 26 years. He was a great statesman and a great soldier, and he had held it for 26 years.

### Bike Riders Fell Behind the Record

Sprints and Frequent Falls During Morning.

(By Times Special Wire.)

New York, Dec. 12.—For the first time since the start of the all-day bicycle race at Madison square Garden at midnight Sunday the leaders fell behind the record today. The laps came at 10 o'clock this morning, the eighty-second hour, when the twelve leading teams were still at 1,610 miles, 7 laps. The record is 1,610 miles 8 laps, made in 1900.

Very tired and sore, the cyclists loitered during the early forenoon, but started sprinting again shortly after ten o'clock.

A series of hair-raising sprints and frequent falls during the early morning kept the spectators at the all-day bicycle race in their seats to-day until after daylight. Notwithstanding the almost continuous accidents, none of the riders was badly hurt, and eight o'clock found twelve teams still for the lead at 1,602 miles, 4 laps. Carman and Loftis and the other brothers were two laps behind the leaders.

Carman and Loftis lost their second lap between two and three o'clock this morning. The former had returned to the track within an hour after a fall during the early part of the night which, it was believed at first, would put him permanently out of the race.

The previous record for the eighteenth hour, which ended at 8 a.m. was 1,575 miles, 7 laps.

The twelve leading teams at noon, the eighty-fourth hour, were one lap ahead of the record, having covered 1,646 miles, 8 laps. The other brothers and Carman and Loftis teams were still two laps behind.

The previous record is 1,646 miles, 7 laps, made in 1900.

### LAURIER'S SPEECH

Ottawa Awaiting Libera Leader's Pronouncement.

(By Times Special Wire.)

Ottawa, Ont., Dec. 12.—Second only to the interest in the Premier's announcement of the naval policy is the attaching to the speech of Sir Wilfrid Laurier in the Commons this afternoon, when he will make known the attitude of the Opposition regarding the naval estimates to the Empire. Outside of Sir Wilfrid and his immediate followers nothing official is known as to what their policy will be, but the usual lines of argument are current in Parliament's circles. The drafting of the Liberal amendment was suggested by a committee by caucus, but its final wording may be shaped by the ex-Premier. As already predicted, reaffirmation of the naval policy is expected along the enlarged lines made possible by the \$30,000,000 appropriation. It is considered the Liberal programme.

Mr. J. D. Hazen is believed to reply to Sir Wilfrid.
